SPACE SAVER STORAGE SYSTEM

The Space Saver Storage System is a multi-rack storage system designed to optimize glass storage capacity. The racks are mounted on a rail system that expands and compresses in order to facilitate the retrieval of different glass types.

- ✓ Architectural, Coating, Mirroring, and Specialty Industries

FEATURES

- ✓ Increase Storage Space 30% Over Standard Rack Systems
- ✓ Customizable Layout: Tailored for individual plant requirements
- ✓ Integrates Seamlessly
- ✓ Heavy Duty Components: Ensure continuous trouble free operation
- ✓ Fully Automated: Easily interfaces with the Cutting Line Control System
- ✓ Optimization Software Extended Shelves: Accommodate multi-pack storage

SUPPORTING EQUIPMENT

- ✓ Crane Loading System
- ✓ CNC 2200
- ✓ Ultra Series

SPECIFICATIONS

72 in x 96 in (1829 mm x 2438 mm)
108 in x 144 in (2743 mm x 3658 mm)
