Billco®
MOVING GLASS *FORWARD.*

OVERVIEW OF PRODUCTS

WASHING SYSTEMS

We provide advanced washing systems for a diverse range of applications, including laminating, insulating, automotive, coating, mirroring, photovoltaic, and specialty uses. Our solutions accommodate both metal and non-glass substrates, offering horizontal and vertical configurations. With processing widths from 16 in to 144 in, we deliver both standard and custom configurations tailored to your specific requirements.

EV Series

310/ Z Series Hybrid

Z Series

Ultra Series

Wide Belt

Strip Cutter

CUTTING SYSTEMS

We offer solutions for low to high-volume cutting requirements, featuring true CNC control systems. Our systems seamlessly integrate with loading solutions from any manufacturer. Choose from standalone compact all-in-one units to fully integrated large format cutting and loading systems, tailored to your needs.

- ✓ Ultra Series
- ✓ Dual Head
- ✓ M Series
- ✓ Strip Cutter

LAMINATING SYSTEMS

Precision-controlled line settings ensure consistent, high-quality laminates with a modular design for custom configurations and drop-in replacements. The recipe control system simplifies operation, while IR heating technology and convection reduce energy consumption.

Cold Press

INSULATING SYSTEMS

A range of manual to semi-automated equipment solutions is available, capable of producing between 100 and over 1,000 units per shift. Systems can function as standalone units or as drop-in replacements, including heat presses specifically designed for various spacer systems.

- ✓ Heat Press
- ✓ Cold Press
- ✓ Application Table
- ✓ Assembly Table

DATA SYSTEMS

We offer a solution for monitoring any glass washer, regardless of year, model, or manufacturer. Warning alerts notify maintenance and engineering teams via email or SMS when limits are exceeded. Process snapshots can be accessed globally with an Internet connection.

- ✓ Data Acquisition and Water Quality Monitoring System
