Reliable Products and Service Bring Returning Customers

When Billco customers are in search of new equipment whether it is replacement needs, expansion or process changes, reliable equipment and quality service are always at the top of their list.

When an existing customer of ours reached out to us about expanding their capacity, they were looking for a reliable washer that would last for years. They chose Billco stating “the service is very reliable and the washer was the best technology on the market.” After installing their brand new Z-Series washer, our customer noted that they saw a significant improvement in the cleanliness of their glass.

When asked about their experience after the machine was installed, they noted “The service and support received from Billco is great as always. I think the service department is at the top of the industry. They make a quality machine and put the customer first.”

Learn more about Billco’s glass processing solutions at www.billco-mfg.com.

“I think the (Billco) service department is at the top of the industry. They make a quality machine and put the customer first.”
