

## Billco Essentials

Replacement Parts and Exchange Program

### What are Billco Essentials?

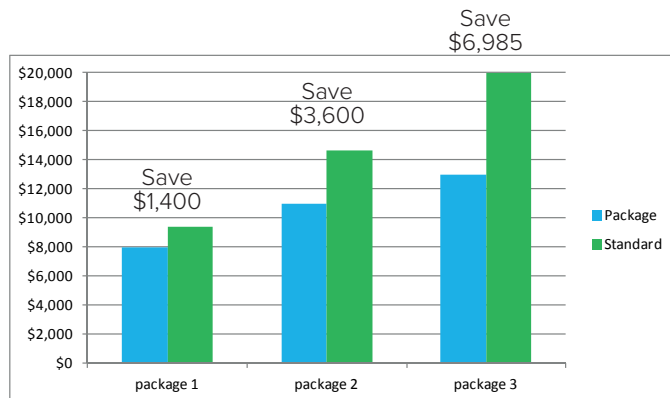

When you purchase equipment from Billco, we are invested in your success. It is our job to make sure your machine performs optimally. The Billco Essentials program supplies you with common replacement parts that are subject to routine wear and recommended for general stocking.

### How Does it Work?

Contact your Billco Replacement Parts Specialist to discuss your equipment condition and budget. We will advise the best package for your needs. Once you receive your shipment, return your used rolls to Billco for a refund or a low recover price through our Exchange option.\*

### What Will I Save?

When you purchase one of the Essentials packages, you automatically save. The larger the package, the bigger the savings. Check out the graph below for the estimated savings and package descriptions. For added savings, take advantage of our Exchange option, explained above.

Legacy96 Essentials Package savings shown vs Standard Pricing

### Exchange Option

When you receive your shipment, return your used rolls to Billco for a refund. We will pay for the return shipment so there is no cost you and you will get credit for every roll, regardless of the age or condition. If you would like to recover the rolls, we can return the rolls to you for the competitive recover price of \$425 each. We also offer brush re-bristling as well.

### Program Benefits

- Save up to 35% over standard pricing
- Being proactive in maintaining your equipment will yield better product quality and minimize costly downtime
